A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 08/13/07 has been entered.

Claims 23-42 and 55-56 are allowed over the prior art of record and in light of applicants' arguments.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach the steps of identifying computational power of a hardware or software component at the attendee client and the presenter client; and providing conferencing data from the conference server to the attendee client, the conferencing data having been provided to the conferencing server by the presenter client, the conferencing data provided to the attendee client in a format based on network connection or load parameters in the conferencing system and the computational power of the presenter client and the attendee client. These limitations and other additional limitations from the other independent claims were not shown or suggested by Tung and the other prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
